

Shortwave Antenna Kit

Model: **SW-1**

Optimized for 2-30MHz

Kit consists of the following:

65 feet #14AWG hard drawn copper wire

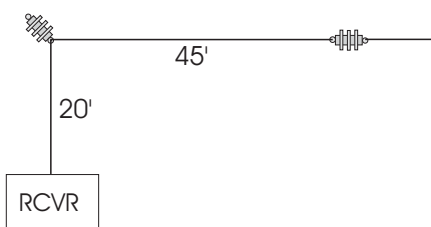

25 feet 3/32" black dacron rope

2 plastic end insulators

\$18.00

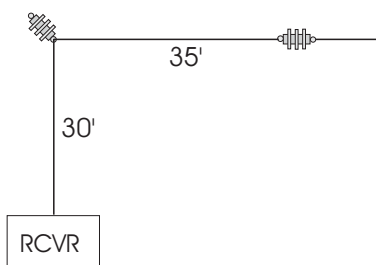

(price in Canadian \$)

CONFIGURATION 1

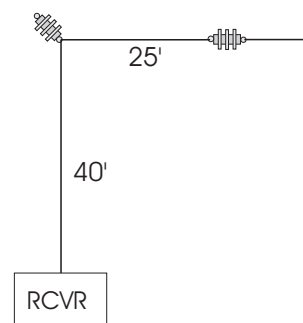

2-4MHz Medium Angle
4-5MHz Medium/High Angle
5-10MHz High Angle
10-15MHz Medium/High Angle
15-22MHz Medium Angle
22-30MHz Low Angle

CONFIGURATION 2

2-5MHz Low Angle
5-6MHz Medium Angle
6-9MHz High Angle
9-15MHz Medium Angle
15-23MHz Low Angle
23-30MHz Low/Medium Angle

CONFIGURATION 3

2-8MHz Low/Medium Angle
8-13MHz Medium Angle
13-15MHz Low Angle
15-20MHz Low/High Angle
20-25MHz Low/Medium Angle
25-30MHz Medium Angle

Low Angle is usually best for DX reception

Low angle is 0-30 degrees

Medium Angle is 30-60 degrees

High Angle is 60-90 degrees
